

CRAFTWOOD (MDF)

TECHNICAL SPECIFICATIONS

CRAFTWOOD (MDF) INTRODUCTION

Craftwood is our entry-level product manufactured in MDF covered in an extruded polypropylene coating, offering exactly the same levels of quality but with reduced colour options and installation capabilities. Craftwood is only available in 5 white painted colours and due to its weight is not suitable for larger unsupported window installations. The maximum number of panels that can be hinged together is 2.

Aesthetics:

Manufactured using a patented polymer coating the shutters are extremely durable and easy to maintain. Craftwood shutters have a slight shinier look and a slight orange peel finish due to the polymer coating. Painted shutters have a flatter finish.

Frames and Panels:

Limited range of frames available.

Stiles:

Please note the stiles are manufactured in a beaded stile.

Louvres:

Craftwood is available in 47mm, 63mm, 76mm, 89mm, elliptical louvres.

Special Shapes:

Limited special shapes are available. Only linear special shapes as curved special shapes cannot be manufactured in Craftwood.

Colour palette:

There are a total of 5 shades of white available. Custom colour is not available.

CRAFTWOOD (MDF) COLOURS

COLOURS

Please note. Colours may vary slightly between dye lots. Shutters for the same installation should be ordered together to avoid variations in colour. Colours may vary slightly from colour samples. For this reason, colour samples should be updated annually.

COLOUR OPTIONS

CRAFTWOOD (MDF) PAINT OPTIONS (5 COLOURS)				
Colour ID	Colour Name		Default Hinge Colour	Optional Hinge Colour
001	Pure White		White	1. White 2. Pearl 3. Bisque 4. Antique-Brass 5. Bright-Bass 6. Stainless 7. Black 8. Nickle-Plated 9. Brushed Nickle-Plated
003	Silk White
