WHAT'S IN STORE FOR THIS YEAR?

With so many exciting projects on the horizon following a great 2019, we thought we'd take the opportunity to remind you of the great offers available to you and show off some of our favourite designs from the last year.

We have always endeavoured to offer our Trade clients the very best offers. We love the opportunity to get involved in your projects and we always want to ensure that the experience of purchasing shutters is the very best for you and your client.

BENEFITS

Just some of the things to look forward to this year:

- We're honouring our trade prices from last year so the same great dis-counts are still available. See our price list on the following page.
- 10 year warranty. You spoke, we listened. With such a great response to our 10 year warranty offer at the end of 2019 we have decided to offer this again in 2020. That's 10 years that we'll guarantee the quality of the shut-ters and our workmanship and the longest available in the industry.
- We're turning 38 this year! That's experience unparalleled by any other independent shutter company, and knowledge that the company that is supplying you will be around for years to come can certainly help you sleep easy.
- Information for your client—as ever, we have a supply of brochures, pictures and online content for you to show your client and help make design choices and show of our products. You know where to find us, just get in touch and we'll send anything you need across.
